Re: Interim Status Clean Closure Equivalency
Olin Chemicals/McIntosh Plant Site, McIntosh, Alabama
EPA ID. No. ALD 008 188 708

Dear Messrs. Farmer and Lucas:

Olin Corporation's Clean Closure Equivalency Demonstration for the McIntosh, Alabama, site is enclosed. This Demonstration is being submitted in accordance with Attachment 1 of the Administrative Order By Consent For Remedial Investigation Feasibility Study (AOC) entered into by the EPA and Olin on May 7, 1990, and in accordance with the EPA's letter of May 25, 1993 (G. Alan Farmer to Jim C. Brown). It is Olin's understanding that the RCRA Permitting Branch will lead the EPA's review of this Demonstration, and the RCRA program will coordinate as needed with the CERCLA program in Region IV, consistent with the EPA's letter of April 10, 1991 to Olin (Donald J. Guinyard to James C. Brown).

Please let me know at 615-336-4308 if you have any questions regarding this submission.

Sincerely,

J.C. Brown
Manager, Environmental Technology
